The Senior Project portfolio serves several purposes, first and foremost, your portfolio is the record of your Senior Project. From your original letter of intent to your Fieldwork Journal and documentation of your fieldwork, your portfolio is a window through which another person can review your accomplishments.

Your portfolio must be complete in order to be permitted to give your oral presentation. Oral presentations are the culminating event for the Senior Project, Presentation grades will serve as your final grade.

Each will be read and checked prior to oral presentations.

Your complete Senior Project portfolio must include the following:

- Portfolio will be presented in a two (2) inch three-ring binder with tabs for each of the separate sections
- Letter of Introduction to Portfolio Reader
- Letter of Intent
- Parent Acknowledgement Form
- Mentor Form
- Fieldwork Time Logs
- Thank You Letter for your mentor
- Fieldwork Journal

A "complete" portfolio means that each of these documents is present and meets the requirements.
