POLICY 3.21: PHYSICAL CONTACT WITH STUDENTS

The purpose of this policy statement is to provide all employees with guidance and direction with respect to physical contact between employees and students at school and during school sponsored functions. The committee believes that this is an area of educational policy, judgment and law which is fraught with changing circumstances and changing standards. What constitutes appropriate physical contact in one circumstance may be totally inappropriate in another. The committee expects that its employees individually and collectively possess the judgment and expertise to conduct themselves in a manner which is educationally sound and acceptable both within the professional community and the community at large.

General Principles:

1. Any physical contact between employees should have a valid educational purpose and objective which meets only the student's needs.
2. The use of physical force or contact in order to impose a staff member's will upon a student, except in an emergency situation, is strictly prohibited.
3. Employees who observe physical contact between students and employees which they deem to be inappropriate are expected to report such observations to the building principal and/or the Superintendent of Schools immediately if possible. If the contact is perceived to be immediately harmful by the observer, prompt and appropriate intervention to prevent further harm is expected.
4. Questions about the appropriateness of physical contact are to be determined by the context of the case and on a case-by-case basis. Issues such as intent, context, location, circumstances, age and sex are all considerations which may be relevant.
5. Touching a student's underclothing, or in the genital areas, or on the buttocks or breasts, except in an emergency situation, is prohibited.
6. Whether or not a situation is to be considered an emergency depends upon an objective assessment of the situation rather than a subjective standard.
7. Any instance of inappropriate physical contact initiated, encouraged, practice and/or tolerated by employees will result in disciplinary action which may include dismissal.

Summary:

Given the complexity of this issue, the School Committee recognizes that some employees may deal with it by implementing a practice of never touching students. This is not the School Committee's intent or objective. However, it is expected that any physical contact between an employee and a student will have a legitimate purpose consistent with the schools' role as educator and caretaker of minor children. (Additional situations are covered in policy 3.54. Refer to policy on Fraternalization Between Employees and Students).

The uses of sarcasm, profanity and /or ridicule have no place in such communications in the school community and are prohibited.

POLICY 3.43: PROFESSIONAL DEVELOPMENT, COURSE REIMBURSEMENT AND DEGREE STATUS CHANGES

The Pembroke School Committee recognizes that it is in the best interests of the student learning, teacher performance improvement and education in general for teachers to continue their studies in their certification area or in specifically related fields. Additionally, it recognizes that teacher recertification under Ed. Reform MGL Chapt.71, requires that teachers engage in professional development activities on an on-going basis so as to remain current in their field and to qualify for renewal of their certification and teaching license in accordance with the law.

Toward those ends a sum of money for the purpose of professional development of staff shall be allocated in each school year's budget specifically for the purpose of professional development.

Course work successfully completed by a teacher may be submitted for advancement on the collectively bargained salary schedule under the following conditions.

1. Courses to be used for increments towards advanced degrees will be from institutions which are recognized by the New England Association of Colleges and Secondary Schools, or by one of the five other regionally accrediting institutions which are the agencies given the responsibility for accrediting school programs by the US Office of Education.
2. Advanced written approval by the Superintendent is required in order for a teacher to take a course for salary credit. The teacher shall submit a Course Approval Request form to the Superintendent for signature. Failure to obtain advance approval shall be cause to reject course credits for salary credit and reimbursement will not be provided.

All teachers covered by the collective bargaining agreement between the School Committee and Pembroke Teacher's Association will have their compensation for credits set by the terms of the agreement.

Reimbursement for coursework completed shall also be governed by the collective bargaining agreement. Upon completion of the course, a transcript or copy of the transcript showing successful completion of the course shall be submitted to the superintendent.

Regulations for Degree Status Change:

The teacher shall submit to the Superintendent a formal request in writing to initiate a degree status change as a result of successful completion of coursework along with the evidence of having completed the coursework and the superintendent's approval of courses being applied towards a change in degree status.

No in-service programs shall be counted toward degree status change.

Changes in degree status shall be implemented at the start of the school year and at the mid year, providing the application has been received and approved prior to those dates.

The purpose of teacher evaluation and observation will be to improve the teacher's ability to provide quality classroom instruction; to promote professional growth of staff; to foster professional satisfaction among the teaching staff; to enhance communication between evaluators and teachers; to accumulate data in an objective, accurate manner as a prerequisite for personnel decisions; and to verify that district educational goals and curricula are being implemented and achieved.

POLICY 3.51: DISTANCE LEARNING FOR ONLINE PROFESSIONAL DEVELOPMENT

The School Committee recognizes that online distance learning opportunities are increasingly available for faculty and students. The committee also believes that, while online distance learning opportunities can offer significant advantages for teachers, it also poses significant challenges. Such coursework requires a high degree of self-motivation as well as the ability of the participant to communicate effectively through reading and writing. It can also pose problems if the course is poorly designed or if the instructor is inexperienced.

Requests for approval made by faculty to the superintendent or building principal to enroll in online distance education courses for the purposes of recertification and professional development will be individually evaluated utilizing the following criteria as recommended by the Massachusetts Department of Education.

1. The content of the course is consistent with state and local educational goals and is equivalent in rigor to traditionally delivered courses.
2. The course makes the best use of available technology and online resources to enrich the content. Face to face or other real-time meetings are provided for any content that cannot be effectively delivered on line.
3. The course provides frequent and timely interactions between participants and the on-line instructor, as well as among the participants.
4. The course provides ways to assess participants' involvement and achievement of learning goals.
5. The online instructor is fully qualified in the content area being taught.
6. The online instructor has been trained and is skilled in methods of teaching online.
7. The online course provider employs staff which manages technical and administrative issues.
8. The learning environment and course materials are universally designed, making them available to all learners.
9. The learning environment is easy to navigate, allowing participants to focus on the content rather than the technology.
10. The course provider has established the necessary hardware, software, Internet connectivity and support services to deliver the program of instruction.
11. Participants' rights and responsibilities are recognized and upheld within the course structure.
12. Participants are notified in advance of course requirements (including time and participation requirements), technical requirements and the skills needed to be successful in distance learning.

POLICY 3.52: EMPLOYEE POSITION CONTROL

The Pembroke School Committee shall approve a list of all existing full and/or part time positions in the Pembroke Public Schools each year. A unique identifier (position control number) will be assigned to each approved position as its permanent identifier.

No position without a position control number may be filled until the School Committee has approved the position and a position control number has been assigned. Positions may not be split or combined without the approval of a new number by the School Committee.

The Superintendent or his/her designee is authorized to fill any vacancy in a funded position with an existing control number without further authorization; except that in no case will the replacement of authorized staff in budgeted positions exceed the approved dollars for that position as contained in the position control document without School Committee approval.

Notwithstanding the provisions set forth above, the Superintendent may make emergency appointments for a period not to exceed four (4) weeks when required to meet the educational needs of the system. The Superintendent is authorized to make appointments to fill positions of employees on approved leaves of absence for periods not to exceed one (1) year.

The Finance and Personnel Office will annually prepare a position control schematic for the district which displays authorized personnel distribution by assignment to various cost centers and programs.
