PRESS RELEASE

On September 10, 2018 at approximately 10:30am the Pembroke Police Department was notified that a student had made threats via social media. Pembroke Police officers responded, conducted an investigation and placed the juvenile under arrest. After the juvenile and parents were interviewed it was found that the juvenile had no access to weapons and the social media posts have been removed. While we believe that there is no ongoing credible threat, Pembroke Police will remain in contact with School Officials to address safety concerns and provide a police presence for students returning to school on Tuesday morning.
